

Physical Cell Biology

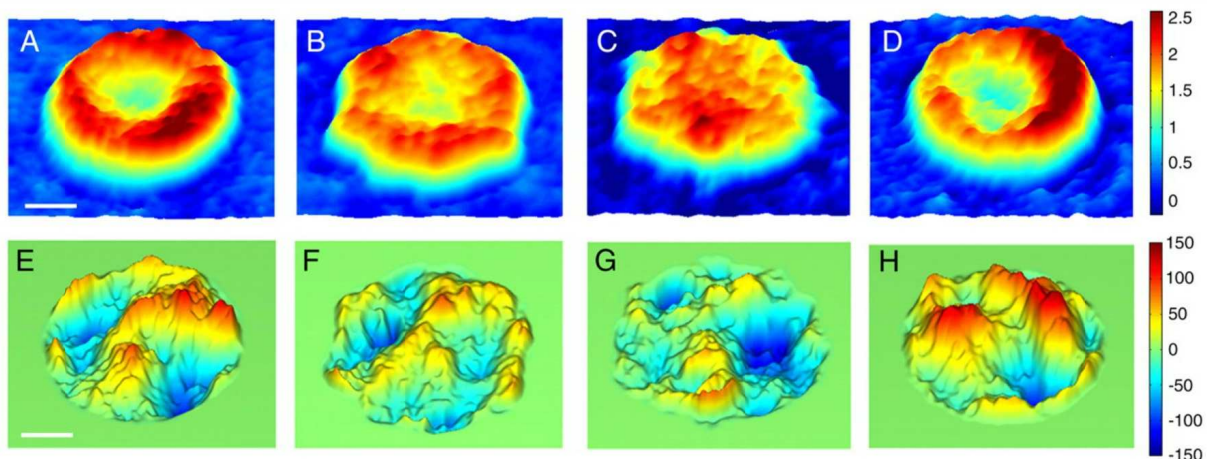

BEN/BIO/CEN/CHE/PHY 635

Instructor: Dr. Martin B. Forstner, Physics

Monday & Wednesday 2:15 - 3:35 PM

Bowne Hall 414

This core course of SU's IGERT program in Soft Interfaces is open to all interested graduate students. Aiming at an interdisciplinary audience, the course will give biology and bioengineering students a more quantitative background for describing biological processes and give physics and chemistry students a strong introduction to biomolecules and cellular processes.

For any questions regarding this course please email the instructor at: mbforstn@syr.edu
